ABOUT ME

Full-Stack Developer with 3.6+ years of experience engineering high-performance web applications. Specialized in React.js, Next.js, TypeScript, Node.js, and Strapi CMS, with a core focus on performance optimization, clean UI/UX, and maintainable architecture. Proven track record of leading frontend initiatives and collaborating with cross-functional teams to deliver pixel-perfect, scalable solutions for both enterprise and startup environments.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), jQuery, HTML5, CSS3, Tailwind CSS, Sass, Framer Motion, GSAP, Material UI, Bootstrap, Storybook

Backend & CMS: Node.js, Strapi, Sanity, NextAuth, Firebase, Supabase, GraphQL, PostgreSQL

Development Tools: Git, GitHub, GitLab, VS Code, Figma, Webflow, Postman, Google Cloud Platform (GCP)

Other Skills: API Integration, Performance Optimization, Accessibility, Team Management, Product Management

Methodologies: Responsive Design, Cross-Browser Compatibility, Code Reviews

EXPERIENCE

Ather Energy (Client) | Full-time — Frontend Developer — Oct 2023 - Present

- Developed end-to-end Ather's digital ecosystem, delivering 20+ high-performance pages with scalable architecture.
- Revamped key customer interaction flows with enhanced UX and content design — driving ~21% yearly growth in clicks, 10% in impressions, and 45–60% annual rise in lead conversions over 3 years.
- Optimised SEO and Core Web Vitals, driving a significant increase in organic traffic
- Built reusable components and a Storybook library, improving UI consistency and development speed by 30%.

4monks Consulting | Full-time — Senior Frontend Developer — Oct 2023 - Present

- Delivered and contributed to 10+ national and international projects using Next.js, React, Sass, JavaScript, and jQuery
- Delivered seamless and pixel-perfect design fidelity, ensuring high-performance standards across all digital platforms.
- Created reusable components and optimized codebase, improving scalability and cutting development time by 25%

Permissionless | Full-time — Lead Frontend Developer — July 2022 - Oct 2023

- Engineered robust full-stack solutions by integrating Web3 functionality, Stripe payment gateways, and Hasura GraphQL with PostgreSQL, while collaborating with designers to drive technical innovation and resolve complex architectural challenges.

PROJECTS

Ather Digital Experience:

- Delivered a multi-page responsive platform with CMS integration and implemented fluid animations for faster, seamless interaction, performance, and engagement. - atherenergy.com

My Portfolio:

- Built with Next.js, TypeScript, Tailwind CSS, and Supabase, featuring interactive blogs and code snippets powered by MDX, with pages like Blogs, Snippets, About, Contact, and more. - omkarrasam.vercel.app

KNMA :

- Developed the complete frontend, creating a responsive and engaging user experience.
- Built modern UI components and optimized performance for seamless cross-device navigation. - knma.org

KGen Gaming:

- Built a modern gaming website with Next.js, React, and GSAP animations, focused on performance, responsiveness, and dynamic user interaction. - kgen.io

~ More featured projects are showcased in [my portfolio](#)

EDUCATION

2022 BE : Computer Engineering	Vishwatmak Om Gurudev College of Engineering - Mumbai	CGPA : 8.00
2019 Diploma : Computer Technology	Sardar Vallabhbhai Patel Polytechnic - Mumbai	Percentage : 65.99

AWARDS

Debugging Dynamo - Best Problem Solver Award — 4Monks Consulting | 2024

Recognized for rapid identification and resolution of complex UI rendering bottlenecks and cross-browser compatibility issues to ensure a seamless user experience.

Kyoorius Design Awards BabyBlue Elephant 2024 — Ather Energy | 2024

Delivered pixel-perfect design fidelity and high-performance standards for a high-visibility project, ensuring fluid, animation-rich user experiences and optimised load times.
